

**BEST Lights, Inc. Patented Net Cage®**

The **BEST Lights Net Cage® Direct/Indirect** fixture protects light fixtures in the playing area. It's pre-assembled and easy to install.

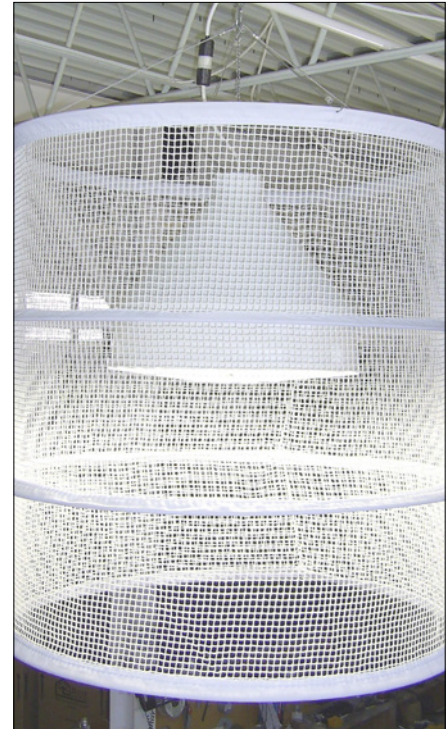

The light weight 1/2" square white nylon netting and 1/4" steel rings absorb the impact from balls keeping them from hitting the light fixture and ricocheting.

The Net Cage is the perfect light protector for facilities that play Baseball, Soccer, Football, Golf, Basketball, Lacrosse, Tennis, and Hockey.

The Net Cage can be installed with BEST Lights or other fixtures in any type of building or air structure that needs more light over the playing area.

The Net Cage will result in energy savings by illuminating the playing area from above, using fewer fixtures that can produce more light.

- Overall Height 64" and Width 48".
- Weight 14 pounds.

**Net Cage for DIRECT Fixtures**

**Net Cage for INDIRECT Fixtures**

**PATENTED**
